HOW TO RUN THIS PAGE

Have each learner name the letters in a row before you read that row's prompt. Listen for accurate, quick recall, allow think time, and record any support separately. This sheet samples letters in non-sequential order; it does not check all 26 letters.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · NAME AND CIRCLE

SAY "Look at the letters in each row. Before I ask my question, say each letter's name on your own. Then circle one letter."

ROW	SAY	STUDENTS CIRCLE
a	Which letter is lowercase g? Circle it.	**g**
b	Which letter is uppercase Q? Circle it.	**Q**
c	Which letter is lowercase d? Circle it.	**d**

PART 2 · LETTER PARTNERS

SAY "Draw a line from each letter on the left to the same letter in the other case on the right. Say the names of both letters on your own as you draw each line."

- **A** matches **a**
- **m** matches **M**
- **T** matches **t**

WHAT TO ACCEPT

Circle g, Q, and d. Match A to a, m to M, and T to t. Record letter naming separately from marks and note whether each name was recalled quickly, after think time, or with support.
