HOW TO RUN THIS PAGE

Work with students individually or in a small group so you can hear each learner read the numerals before saying a row's target number. Allow think time, note reading accuracy, and record any help you give separately from the student's answers.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · READ AND CIRCLE

SAY "Read all three numbers in each row aloud to me. I will listen before I ask you which one to circle."

ROW	SAY	STUDENTS CIRCLE
a	Which number is seventy-four? Circle it.	**74**
b	Which number is one hundred six? Circle it.	**106**

PART 2 · TRACE AND READ

SAY "Trace each gray number. Then read it aloud to me without my saying it first."

- Box 1: **Traces 0 and reads it aloud as zero.**
- Box 2: **Traces 92 and reads it aloud as ninety-two.**
- Box 3: **Traces 120 and reads it aloud as one hundred twenty.**

WHAT TO ACCEPT

The circles should mark 74, then 106. Check each numeral read aloud before offering its name, since a correct circle or trace alone does not show that the student can read it.
