How Many More?

Find how many were added in each story.

1.OA.A.1.a "Add to with change unknown to solve word problems within 20."

NAME _____ DATE _____

Teacher: this page is run aloud. The script and answers are on the guide page.

1 CIRCLE IT

a	4	5	9
b	6	8	14
c	7	17	10

2 WRITE IT

5	
11	

ANSWER KEY

How Many More?

GRADE 1 · 1.OA.A.1.a

HOW TO RUN THIS PAGE

Read the stories aloud and give students time to count on from the starting number to the new total. Students should find how many were added, not circle or write the total. Record any counting support separately.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · CIRCLE IT

SAY "Listen to each story. You can count on to find how many were added. Circle the number that answers the question."

ROW	SAY	STUDENTS CIRCLE
a	A jar has 4 buttons. Sam puts in some more. Now it has 9 buttons. How many buttons did Sam put in? Circle the number.	**5**
b	There are 8 blocks on a table. Lee adds some more. Now there are 14 blocks. How many blocks did Lee add? Circle the number.	**6**
c	A box holds 7 crayons. More crayons go in. Now the box holds 17 crayons. How many crayons went in? Circle the number.	**10**

PART 2 · WRITE IT

SAY "For the box marked 5, there are 5 shells in a cup, then some more are added, and now there are 13 shells; how many shells were added? For the box marked 11, there are 11 marbles in a bag, then some more are added, and now there are 18 marbles; how many marbles were added? Write each missing amount in its box."

- Box 1 (beside 5): **8**
- Box 2 (beside 11): **7**

WHAT TO ACCEPT

Circle 5, 6, and 10 in order. The boxes should show 8 and 7 in order. Accept a correctly written numeral, and record counting support separately.
