HOW TO RUN THIS PAGE

Read the directions aloud and listen to each student count individually. Check the full oral counts by ones from 0 to 100, by tens from 0 to 100, and backward by ones from 10 to 0. Note accuracy and smooth recall, and record any help given separately.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · COUNT AND CIRCLE

SAY "I will listen as you count aloud. After you count, circle one number in the row. I can read the choices to you."

ROW	SAY	STUDENTS CIRCLE
a	Can you count aloud from zero to one hundred by ones? Which number did you say just before one hundred? Circle it.	**99**
b	Can you count aloud from zero to one hundred by tens? Which number did you say just before one hundred? Circle it.	**90**

PART 2 · COUNT BACK

SAY "Look at the number beside each box. For the box beside ten, can you count backward aloud by ones to zero, then write the last number you said? For the box beside six, can you count backward aloud by ones to zero, then write the number you said just before three?"

- Box 1 (beside 10): **0**
- Box 2 (beside 6): **4**

WHAT TO ACCEPT

Circle 99 and 90. Accept 0 and 4 in the boxes. Check the spoken counts, not just the marks, and note any prompts or corrections separately.
