Last Number Counts

KINDERGARTEN · K.FC.B.4.b

HOW TO RUN THIS PAGE

Read each prompt aloud and listen as students point to and count the dots aloud. Check that each student uses the last number said to tell the total, and record any counting help separately.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · COUNT AND CIRCLE

SAY "Point to each dot as you count aloud. The last number you say tells how many dots there are."

ROW	SAY	STUDENTS CIRCLE
a	Count the dots in this row. Which number tells how many dots there are? Circle it, then say how many dots there are.	**4**
b	Count the dots in this row. Which number tells how many dots there are? Circle it, then say how many dots there are.	**5**
c	Count the dots in this row. Which number tells how many dots there are? Circle it, then say how many dots there are.	**3**

PART 2 · COUNT AND WRITE

SAY "Count the dots beside each box aloud. What number did you say last? Write that number in the box, then tell me how many dots there are."

- Box 1 (beside 6 dots): **6**
- Box 2 (beside 8 dots): **8**

WHAT TO ACCEPT

Correct circles, in order: 4, 5, 3. Accept 6 and 8 in the boxes when the student also counts aloud and states each total.
