Market Day Roles

Find goods, services, producers, and consumers.

2.SS.3.3 "Examine different types of producers and consumers as well as goods and services."

NAME _____ DATE _____

1 READ AND MARK

Read it twice

YOUR JOB Underline two kinds of goods, circle one service, and write 1 by someone who is both a consumer and a producer.

A Busy Town Square

1. On Saturday, the town square fills with stands. Ana bakes rolls and sells them at her stand. The rolls are goods people can take home. Ana is a producer because she makes something for others to buy.

2. Near Ana, Mr. Lee fixes bikes for a fee. He checks tires and tightens loose parts. His work is a service, not an item to take home. Mr. Lee is a producer because he does work for others.

3. Maya buys a roll from Ana, then pays Mr. Lee to fix her bike. Maya is a consumer when she buys a good or a service. Later, Maya makes paper cards to sell. Now she is a producer, too.

2 ANSWER WITH EVIDENCE

Use the passage

1. What good does Ana produce? Why is it a good?

2. What service does Mr. Lee provide? Why is it a service?

3. How is Maya both a consumer and a producer?

3 YOUR TURN

Your own words

Think of a place other than the town square. Write two sentences about a producer there and the good or service that person provides, then a consumer and what that person buys.

ANSWER KEY

Market Day Roles

GRADE 2 · 2.SS.3.3

PART 1 · READ AND MARK

Underline two kinds of goods, circle one service, and write 1 by someone who is both a consumer and a producer. Accept any marking that follows this job and points at the right text.

PART 2 · ANSWERS

#	QUESTION	ANSWER
1	What good does Ana produce? Why is it a good?	**Ana produces rolls. They are goods because people can take them home.**
2	What service does Mr. Lee provide? Why is it a service?	**He fixes bikes. It is a service because he does work for others.**
3	How is Maya both a consumer and a producer?	**Maya is a consumer when she buys a roll and pays to have her bike fixed. She is a producer when she makes paper cards to sell.**

PART 3 · YOUR TURN (SAMPLE ANSWER)

At a car wash, a worker cleans cars for a fee, so the worker is a producer of a service. A driver pays for the car wash, so the driver is a consumer.

For the marking job, accept rolls and paper cards as goods, Mr. Lee's bike-fixing work as a service, and Maya as both a consumer and a producer. For Your Turn, accept any accurate example from a place other than the town square.
