Words on Screen

Students choose two words, type them, and share a readable document.

1.W.5.d "Use available technology to produce and publish legible documents."

NAME _____ DATE _____

Teacher: this page is run aloud. The script and answers are on the guide page.

1 PICK WORDS

a

sun	**son**	**sum**

b

noon	**moon**	**moom**

2 MAKE AND SHARE

type	
show	

ANSWER KEY

Words on Screen

GRADE 1 · 1.W.5.d

HOW TO RUN THIS PAGE

Read the directions aloud and provide each student access to an available classroom computer or tablet. Help students open a document, but let them press the keys and show their finished work themselves. Record any support separately from their work.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · PICK WORDS

SAY "Listen as I read each row. Circle the word that answers my question. You will use your circled words to make a document."

ROW	SAY	STUDENTS CIRCLE
a	The choices are sun, son, and sum. Which word names the bright thing in the sky? Circle it.	**sun**
b	The choices are noon, moon, and moom. Which word names the round thing we often see in the night sky? Circle it.	**moon**

PART 2 · MAKE AND SHARE

SAY "Use a classroom computer or tablet to type your two circled words in a document, with one word on each line. Show your finished document on the screen to a partner so your partner can read it. Write yes beside type when you have typed the words, and beside show when your partner has read them."

- Box 1 (beside type): **yes, after the student types sun and moon on separate lines**
- Box 2 (beside show): **yes, after the student shows the document to a partner who can read it**

WHAT TO ACCEPT

The circled words are sun and moon. Verify on the device that the student typed both words on separate lines and shared a legible document; the written yes responses alone do not show the technology skill.
