HOW TO RUN THIS PAGE

Read each prompt and its choices aloud. Students circle the time word that places a school event in order, rather than naming an event you have already placed for them.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · SCHOOL MAPS

SAY "Listen to a make-believe story about our class making school maps. I will read the words in each row. Circle the word that tells when the event happens."

ROW	SAY	STUDENTS CIRCLE
a	We are making school maps today. We walked around the school one day before we made the maps. When did we walk around the school? Circle the word.	**yesterday**
b	We walked around the school yesterday. We will share our maps two days after that walk. When will we share the maps? Circle the word.	**tomorrow**
c	We will share our school maps tomorrow. We color them one day before we share them. When do we color the maps? Circle the word.	**today**

PART 2 · MORE SCHOOL DAYS

SAY "Think about more events at school. In the first two rows, I will read last, this, and next as last week, this week, and next week. In the last row, I will read past, present, and future."

ROW	SAY	STUDENTS CIRCLE
a	Imagine today is Monday. We will sing at a school assembly seven days after today. In which week will we sing? Circle the word.	**next**
b	Imagine today is Monday. Our class visited the school library seven days before today. In which week did we visit? Circle the word.	**last**
c	Imagine we are looking at our school maps right now. We walked around the school before we made the maps. Is that walk in the past, present, or future? Circle the word.	**past**

WHAT TO ACCEPT

In row order, the answers are yesterday, tomorrow, today, next week, last week, and past. For the week rows, students circle next or last on the page. Record any help you give separately from the student's answers.
