Choices at the Fair

What a price buys and what a choice changes

2.E.1 "Explain the price of and the product received from goods and services and the impact on consumers."

NAME _____ DATE _____

1 READ AND MARK

Read it twice

YOUR JOB Circle the price of the kite and the face painting, then underline what Nia would get for each price.

Nia's Fair Money

1. On Saturday, Nia takes six dollars to the park fair. A stand sells a paper kite for four dollars. The kite is a good, a thing Nia can take home. If she buys it, she will have two dollars left.

2. At the fair, a helper will paint a small star on a child's face for three dollars. Face painting is a service, work someone does for you. Nia would get a painted star, but she could not take a jar of paint home.

3. Nia wants both, but four dollars plus three dollars is seven dollars. She has only six. The bus ride home costs two dollars. She buys the kite and saves two dollars for the bus. Now she can fly a kite and ride home.

2 ANSWER WITH EVIDENCE

Use the passage

1. If Nia buys the kite, what does she get, and how much money does she have left?

2. What does Nia get for three dollars, and why is it a service instead of a good?

3. Why can't Nia buy both the kite and face painting? How does her choice help her?

3 YOUR TURN

Your own words

You have $10. Think of a good and a service that are not in the story. In three sentences, give the price and what you get for each, then tell which one you buy and how much money you have left.

ANSWER KEY

Choices at the Fair

GRADE 2 · 2.E.1

PART 1 · READ AND MARK

Circle the price of the kite and the face painting, then underline what Nia would get for each price. Accept any marking that follows this job and points at the right text.

PART 2 · ANSWERS

#	QUESTION	ANSWER
1	If Nia buys the kite, what does she get, and how much money does she have left?	**She gets a paper kite and has two dollars left.**
2	What does Nia get for three dollars, and why is it a service instead of a good?	**She gets a star painted on her face. It is a service because someone does work for her.**
3	Why can't Nia buy both the kite and face painting? How does her choice help her?	**Together they cost seven dollars, but she has only six. Buying the kite leaves two dollars for the bus ride home.**

PART 3 · YOUR TURN (SAMPLE ANSWER)

A sticker book costs $4, and I get a book of stickers. A haircut costs $8, and I get my hair cut. I buy the haircut, so I have $2 left from my $10.

Accept any different good and service with clear prices and products received. The chosen price must be no more than $10, and the money left must be correct.
