The Story of Pine School

(1) Pine School is a made-up school with a story to tell. In 2022, a new path opened between the school and the town park. Long before that, in 2001, Pine School opened with four classrooms.

(2) In 2017, children and teachers planted a garden by the playground. They grew beans there. Years earlier, in 2005, families painted a bright mural in the hall. The mural showed children reading, playing, and helping one another.

(3) In 2010, one classroom became a library. Students could borrow books to take home. These changes did not happen in the order told here. A timeline puts events in order, from the earliest year to the latest year.
