Make and share one helpful class slide.

GRADE 3 · C.3.4

C.3.4 "With guidance and support from adults, use digital resources to create and publish products as well as to interact and collaborate with others."

NAME _____ **DATE** _____

OUR GROUND RULES Read together first

1. Use only the shared slide your teacher set up.
2. Keep names and private information off the slide.
3. Listen to each idea, and say what you really think.
4. Post the slide only after your teacher approves it.

HOW TO PLAY Teams of 3 or 4

1. Choose one TOPIC card for your group's slide.
2. Each player takes one ROLE card. With three players, share the fourth job.
3. Shuffle two sets of MOVE cards, then deal four cards to each player.
4. Work on the shared slide for 12 minutes. When you truly use a card's starter, put that card in the middle.
5. Stop at 12 minutes, even if the slide is not posted. Leave unused cards unplayed, then check the reflection statements.

AFTER THE ROUND Check what you did

- [ ] I helped make or improve our shared slide.
- [ ] I used the slide to work with my group.
- [ ] I listened to a teammate's idea and gave a reply.
- [ ] I checked our slide or asked for approval before posting.

RUNNING THE ROUNDS

Set up a shared slide and an approved class posting space before the round, and print two sets of MOVE cards per group. At 12 minutes, end the round whether or not the slide is posted; students do not need to play every card. For uneven participation, invite a quieter student to use their role, but do not require a card that does not fit the conversation.

WHAT A STRONG ROUND SOUNDS LIKE

Maya	Let's type this tip on our slide: Ask a new student to play.
Leo	I like your idea because an invitation helps someone join in.
Nia	What do you think about adding a tip to say your name?
Maya	Let's change the slide to say Ask a new student to play and tell them your name instead.
Leo	Our group agrees on both tips for welcoming a new student.

LISTEN FOR

- Students suggest words to type or change on the shared slide.
- Students respond to teammates before choosing what to include.
- Students give a truthful summary, including any differences that remain.
- Students check the slide and seek teacher approval before posting.

There are no right answers to the topic cards. Score the moves students make, not their opinions.
