# Letter Path Lab

Trace and print capital and lowercase letters.

**RF.K.3.b** "Form/print all upper and lowercase letters correctly, using a common path of movement."

NAME _____ DATE _____

Teacher: this page is run aloud. The script and answers are on the guide page.

## 1 CAPITAL LETTERS

L

O

T

## 2 SMALL LETTERS

l

o

t

**ANSWER KEY** # Letter Path Lab

### HOW TO RUN THIS PAGE

Read each part aloud and point to the gray letters. Watch where each student starts and how the pencil moves as the student traces, then prints each letter without tracing. Record any support separately.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

### PART 1 · CAPITAL LETTERS

**SAY** "Can you trace each gray capital letter, then write it again beside the trace in the same box? Start at the top and follow the letter's path."

- Box 1: **L**
- Box 2: **O**
- Box 3: **T**

### PART 2 · SMALL LETTERS

**SAY** "Can you trace each gray lowercase letter, then write it again beside the trace in the same box? Start at the top and follow the letter's path."

- Box 1: **l**
- Box 2: **o**
- Box 3: **t**

### WHAT TO ACCEPT

Accept legible copies made with these paths: L goes down, then right; O and o make closed curves; T has a top bar and a center downstroke; l goes down; t goes down, then across. Check the untraced copy in each box for formation, and note support separately.
