corners	

ANSWER KEY

Shape Group Hunt

KINDERGARTEN · K.DS.A.1

HOW TO RUN THIS PAGE

Read each prompt aloud and have students circle one shape in each row. Then have them sort all nine shapes into the two groups named in Part 2 and write each group's count.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · CIRCLE SHAPES

SAY "Look at one row at a time. Listen to my question, then circle one shape."

ROW	SAY	STUDENTS CIRCLE
a	Which shape is round? Circle it.	**oval**
b	Which shape has corners? Circle it.	**square**
c	Which shape is round? Circle it.	**circle**

PART 2 · SORT AND COUNT

SAY "Look at all nine shapes above, not just the ones you circled. Sort them into two groups: round shapes and shapes with corners. How many are in each group? Write the numbers in the boxes."

- Box 1 (beside round): **4**
- Box 2 (beside corners): **5**

WHAT TO ACCEPT

The circled shapes are oval, square, and circle. Across all nine shapes, accept 4 for round and 5 for corners.
