HOW TO RUN THIS PAGE

Read the directions aloud and give students time to form each number. Before Part 2, cover every gray model in Part 1 with a blank sheet of paper, then note any help given during dictation separately from the written answers.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · TRACE NUMBERS

SAY "Can you trace each gray number and say it as you trace?"

- Box 1: **2**
- Box 2: **11**
- Box 3: **18**

PART 2 · MAKE CODE

SAY "The gray numbers are hidden. What number do you write in each box when I say these numbers? First box: zero. Second box: thirteen. Third box: twenty."

- Box 1: **0**
- Box 2: **13**
- Box 3: **20**

WHAT TO ACCEPT

Check that traced numerals follow the gray models and that dictated boxes show 0, 13, and 20 in order. Accept recognizable numerals; record prompting or other support separately.
