ANSWER KEY

Number Detectives

GRADE 1 · MT.1.OA.6

HOW TO RUN THIS PAGE

Read each clue aloud and allow think time while students solve and mark their answers. Ask students to explain one answer orally, and note whether they count, use a known fact, or need support.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · CIRCLE IT

SAY "Listen to each number clue. Circle the dots or number that shows the answer."

ROW	SAY	STUDENTS CIRCLE
a	What is four plus three? Circle the dots that show the answer.	**7 dots**
b	What is nine take away six? Circle the number that shows the answer.	**3**
c	What is five plus five? Circle the number that shows the answer.	**10**

PART 2 · WRITE IT

SAY "Look at the dots beside each box. For the box by six dots, what is six take away two? Write the number left in that box. For the box by nine dots, what is nine take away four? Write the number left in that box."

- Box 1 (beside 6 dots): **4**
- Box 2 (beside 9 dots): **5**

WHAT TO ACCEPT

Circle seven dots, 3, and 10, in that order. Accept 4 and 5 in the boxes; record any counting or teacher support separately from accuracy.
