Number Neighbors

Compare two-digit numbers using more than, less than, and equal to.

1.N.1.9 "Use words such as "more than," "less than," and "equal to" to describe the relative value of numbers."

NAME _____ DATE _____

Teacher: this page is run aloud. The script and answers are on the guide page.

1 CIRCLE ONE

a	47	48	52
b	61	59	62
c	70	71	69

2 MATCH WORDS

53	•	•	less
48	•	•	equal
50	•	•	more

ANSWER KEY # Number Neighbors

GRADE 1 · 1.N.1.9

HOW TO RUN THIS PAGE

Read each row prompt aloud and give students time to compare tens and ones. For the matching task, listen as each student says the complete comparison while drawing a line.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · CIRCLE ONE

SAY "Look at the tens and ones in each number. Listen to each question, then circle one number."

ROW	SAY	STUDENTS CIRCLE
a	Which number is more than 48? Circle it.	**52**
b	Which number is less than 61? Circle it.	**59**
c	Which number is equal to 70? Circle it.	**70**

PART 2 · MATCH WORDS

SAY "Compare each number on the left with 50. Draw a line to the word that tells how it compares. As you draw each line, say the whole idea: more than 50, less than 50, or equal to 50."

- **53** matches **more**
- **48** matches **less**
- **50** matches **equal**

WHAT TO ACCEPT

Circle 52, 59, and 70, in that order. Match 53 to more, 48 to less, and 50 to equal; listen for the complete comparisons with 50.
