Math That Fits

Solve problems to 10 and check two equations.

1.N.2 "Solve addition and subtraction problems with sums and minuends of up to 10 in real-world and mathematical contexts. Represent and solve problems using addition and subtraction with sums and minuends of up to 10..."

NAME _____ DATE _____

Teacher: this page is run aloud. The script and answers are on the guide page.

1 CIRCLE IT

a	5	7	6
b	4	5	6
c	3	5	4

2 CHECK IT

1	
2	

ANSWER KEY

Math That Fits

GRADE 1 · 1.N.2

HOW TO RUN THIS PAGE

Read the problems aloud and give students time to think. Observe whether each student recalls facts accurately or counts, and record any support separately from the answers on the sheet.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · CIRCLE IT

SAY "Listen to each problem. You may use your fingers to think, then circle one number in each row."

ROW	SAY	STUDENTS CIRCLE
a	You have 4 pencils. A friend gives you 3 more. How many pencils do you have now? Circle the number.	**7**
b	There are 9 paper clips. You take away 5. How many paper clips are left? Circle the number.	**4**
c	What number makes 2 plus that number equal 6? Circle the missing number.	**4**

PART 2 · CHECK IT

SAY "Write Y if an equation is true and N if it is not true. For box 1, is 3 plus 2 equals 5 true? For box 2, is 8 minus 3 equals 6 true?"

- Box 1 (beside 1): **Y**
- Box 2 (beside 2): **N**

WHAT TO ACCEPT

Circle answers, in order: 7, 4, 4. Box 1: Y. Box 2: N, since 8 minus 3 equals 5.
