Shape Detective

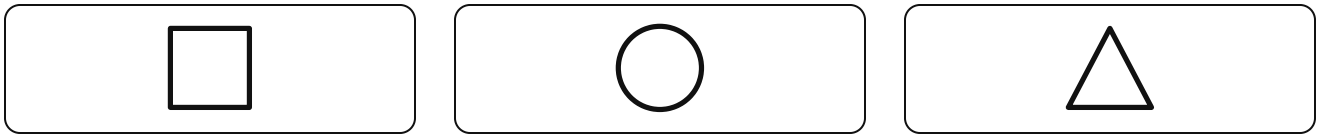

Identify and match four basic shapes.

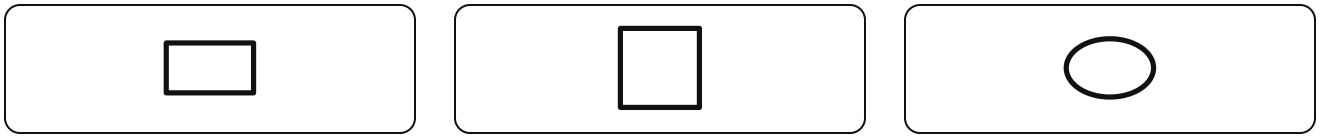

K.GM.1.1 "Recognize squares, circles, triangles, and rectangles."

NAME _____ DATE _____

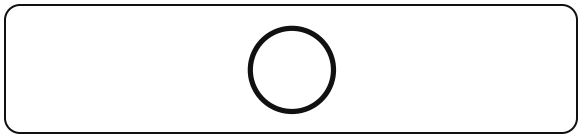

Teacher: this page is run aloud. The script and answers are on the guide page.

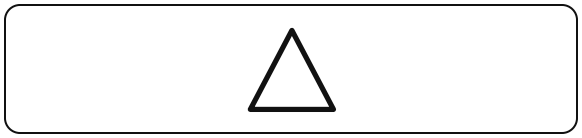

1 CIRCLE IT

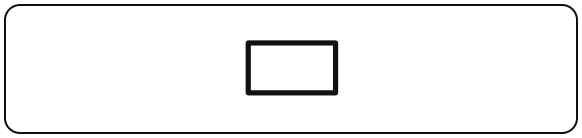

a 

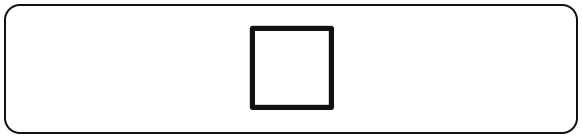

b 

2 MATCH SHAPES

- rectangle
- circle
- square
- triangle

ANSWER KEY # Shape Detective

HOW TO RUN THIS PAGE

Read the questions aloud and give students time to look before they mark. In the matching part, point to and read each word on the right without pointing to a shape.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · CIRCLE IT

SAY "Look at the shapes in each row. Listen to my question, then circle one shape."

ROW	SAY	STUDENTS CIRCLE
a	Which shape is a triangle? Circle it.	**triangle**
b	Which shape is a rectangle? Circle it.	**rectangle**

PART 2 · MATCH SHAPES

SAY "Look at the shapes on the left. I will point to each word on the right and read it aloud. Draw a line from each shape to the word that names it."

- **circle** matches **circle**
- **triangle** matches **triangle**
- **rectangle** matches **rectangle**
- **square** matches **square**

WHAT TO ACCEPT

Circle row answers: triangle, then rectangle. In matching, accept a line from each outlined shape to its name: circle, triangle, rectangle, and square.
