Book Lineup

Compare and order three books by length.

K.GM.2 "Compare and order objects according to location and measurable attributes. Use words to compare objects according to length, size, weight, position, and location. Order up to 6 objects using measurable attributes..."

NAME _____ DATE _____

Teacher: this page is run aloud. The script and answers are on the guide page.

1 CIRCLE ONE

a | 1 | 2 | 3 |

b | 1 | 2 | 3 |

2 PUT IN ORDER

ANSWER KEY

Book Lineup

HOW TO RUN THIS PAGE

Choose three books with clearly different lengths from bottom edge to top edge. Lay them side by side with their bottom edges lined up and covers facing up: a medium-length book on the left, the longest in the middle, and the shortest on the right. Students compare the books, then record their order.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · CIRCLE ONE

SAY "Look at the three books. We call them book 1, book 2, and book 3 from left to right. Circle one number in each row."

ROW	SAY	STUDENTS CIRCLE
a	Which book is the longest? Circle its number.	**2**
b	Which book is the shortest? Circle its number.	**3**

PART 2 · PUT IN ORDER

SAY "Look at the same three books. Write their numbers in the boxes from shortest to longest, one number in each box."

- Box 1: **3**
- Box 2: **1**
- Box 3: **2**

WHAT TO ACCEPT

The circled numbers are 2 for longest and 3 for shortest. The boxes read 3, 1, 2 from left to right.
