# Science Trailblazers

Connect historical figures with science and technology.

**1.C.1.6.C** "Science and Technology (e.g., Benjamin Banneker, Meriwether Lewis, William Clark)"

NAME _____ DATE _____

Teacher: this page is run aloud. The script and answers are on the guide page.

## 1 LISTEN AND CIRCLE

| | | | |
|---|---|---|---|
| a | **maps** | **clock** | **plants** |
| b | **plants** | **maps** | **clock** |
| c | **plants** | **clock** | **maps** |

## 2 MAKE CONNECTIONS

| | | | |
|---|---|---|---|
| **Banneker** | • | • | **maps** |
| **Lewis** | • | • | **clock** |
| **Clark** | • | • | **plants** |

# Science Trailblazers

## HOW TO RUN THIS PAGE

Read each clue and its choices aloud. Students use the clues to connect three people from history with things they studied or made.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

## PART 1 · LISTEN AND CIRCLE

**SAY** "I will read a clue and three words for each row. Listen, then circle the word that fits the clue."

| ROW | SAY | STUDENTS CIRCLE |
|---|---|---|
| a | Benjamin Banneker built a wooden tool with hands that tell time. Your choices are maps, clock, and plants. Which word names what he built? | **clock** |
| b | Meriwether Lewis collected and wrote about living things with leaves on his journey west. Your choices are plants, maps, and clock. Which word names what he studied? | **plants** |
| c | William Clark drew rivers and paths to show where he traveled west. Your choices are plants, clock, and maps. Which word names what he made? | **maps** |

## PART 2 · MAKE CONNECTIONS

**SAY** "Now use the clues you heard. On the left are Banneker, Lewis, and Clark. On the right are maps, clock, and plants. Can you draw a line from each person to the thing that goes with that person?"

- **Banneker** matches **clock**
- **Lewis** matches **plants**
- **Clark** matches **maps**

## WHAT TO ACCEPT

Circle clock, plants, and maps, in that order. Match Banneker to clock, Lewis to plants, and Clark to maps.
