Money Value Mix

Students find coin and dollar-bill combination values by circling and writing amounts.

MA.1.M.2.3 "Find the value of combinations of pennies, nickels and dimes up to one dollar, and the value of combinations of one, five and ten dollar bills up to $100. Use the ¢ and $ symbols appropriately."

NAME _____ DATE _____

Teacher: this page is run aloud. The script and answers are on the guide page.

Money Value Mix

GRADE 1 · MA.1.M.2.3

HOW TO RUN THIS PAGE

Use the printed coin photographs for identification before naming values. Read numerical choices and task prompts aloud, allowing independent think time. Coin photographs show selected U.S. designs; real coins may have different reverse designs.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 · CIRCLE IT

SAY "Look at one pictured collection at a time. Identify its coins, count their values, then circle the matching amount. Read amount choices aloud without naming the pictured coins."

ROW	SAY	STUDENTS CIRCLE
a	Identify and count the pictured coins above this row. Which amount is their total value? Circle it.	**17¢**
b	Identify and count the pictured coins above this row. Which amount is their total value? Circle it.	**45¢**
c	Identify and count the pictured coins above this row. Which amount is their total value? Circle it.	**80¢**

PART 2 · WRITE DOLLARS

SAY "Listen to each dollar-bill story. What is the value? Write the amount with a dollar sign in each box."

- Box 1: **$25**
- Box 2: **$40**
- Box 3: **$100**

WHAT TO ACCEPT

Part 1 answers are 17¢, 45¢, and 80¢. For Part 2, read these stories in order: one ten-dollar bill and three five-dollar bills, two ten-dollar bills and four five-dollar bills, then nine ten-dollar bills, one five-dollar bill, and five one-dollar bills. Accept $25, $40, and $100 with the dollar sign.
