HOW TO RUN THIS PAGE

Read each clue and each choice aloud. Students listen for where school places are in relation to other places, then mark the place or location word that fits the clue. Also provide an accessible photo, layout or model of the actual school campus. Read labels and show the viewpoint/front for any behind relationship.

Students never read directions on this sheet. Read each part's script aloud, then each prompt, giving think time before students mark.

PART 1 • FIND PLACES

SAY “Listen to each Sunny School clue. I will read all the place words in the row. Which place answers the question?”

ROW	SAY	STUDENTS CIRCLE
a	At Sunny School, the library is beside the office. Read: cafeteria, library, playground. Which place is beside the office?	library
b	At Sunny School, the gym is behind the cafeteria. Read: gym, library, office. Which place is behind the cafeteria?	gym
c	At Sunny School, the playground is outside the building. Read: office, cafeteria, playground. Which place is outside the building?	playground

PART 2 • WHERE WORDS

SAY “Listen to each Pine School clue. I will read the three location words. Which location word fits the clue? Now use our campus picture or model. Point to a place you know. Show or tell where it is compared with another place, using beside, behind or outside.”

ROW	SAY	STUDENTS CIRCLE
a	At Pine School, the art room is behind the office. Read: behind, beside, outside. Which word tells where the art room is?	behind
b	At Pine School, the music room is beside the gym. Read: outside, beside, behind. Which word tells where the music room is?	beside
c	At Pine School, the parking lot is outside the building. Read: beside, behind, outside. Which word tells where the parking lot is?	outside

WHAT TO ACCEPT

Part 1 answers are library, gym, and playground. Part 2 answers are behind, beside, and outside. Also observe the child locating a meaningful place in the real campus referent and showing one accurate relative relationship. Accept pointing, matching, dictated words or communication aids. Check behind against the stated viewpoint; fictional clue answers alone do not complete this task.
