

Savings Grow Bigger

Add each new savings amount to the money you already have.

GRADE 2 • TEKS 2.11.A

2.11.A "calculate how money saved can accumulate into a larger amount over time;"

NAME _____

DATE _____

WATCH SAVINGS ADD UP

When you save money, add the new amount to the amount already in your jar. Your total gets bigger each time you save.

WORKED EXAMPLE

Lena has 9 cents in her savings jar. She saves 8 more cents. How much money does Lena have now?

1. Start with 9 cents.
2. Add 8 cents.
3. $9 + 8 = 17$.

Answer: 17 cents

PRACTICE 5 problems

- 1** Omar has 12 cents in his piggy bank. He saves 5 more cents. How much money does he have now?

WORK SPACE AND ANSWER

PART 1 • PRACTICE

#	PROBLEM	ANSWER
1	Omar has 12 cents in his piggy bank. He saves 5 more cents. How much money does he have now?	17 cents
2	Pia has 20 cents saved. She puts 6 more cents in her jar. How much money does she have now?	26 cents
3	Ava has 14 cents in her coin cup. She saves 10 more cents. How much money does she have now?	24 cents
4	Ben has 30 cents saved for a toy. He saves 7 more cents. How much money does he have now?	37 cents
5	Nia has 25 cents in her savings box. She adds 4 more cents. How much money does she have now?	29 cents

PART 2 • APPLY IT

1. **28 cents** Add the money already saved and the new money: $16 + 12 = 28$ cents.
2. **55 cents** Add 15 cents to 40 cents: $40 + 15 = 55$ cents.

CHALLENGE

40 cents

Accept answers written with the cent sign, such as 17¢. For the challenge, students may use $22 + 6 + 6 + 6 = 40$.
