Name That Source

Sort presentation lines by how clearly they name source material.

8.C.2.A.v "Deliver collaborative and individual formal and informal interactive presentations This includes: Referencing source material as appropriate during the presentation."

NAME _____ DATE _____

CLEARLY CITED	NOT CLEARLY CITED
A speaker clearly names a specific source when using information from it. The source might be an author, organization, title, interview, survey, or labeled visual.	A speaker uses information from a source but does not clearly name where the information came from. Listeners cannot easily check the source.
The Library of Congress video "How Maps Are Made" describes why mapmakers use symbols.	This information proves that maps have changed over time.
